

L'Hirondelle Guest House

" Goes Green "

Recently expanded and upgraded L'Hirondelle Guest House on the famous Cote D'or strip, has added energy conservation and environmentally effective solutions to the new and upgraded facilities.

The goal - to provide a fun guest experience whilst always conscious of protecting the beautiful Seychelles.
L'Hirondelle 'Greening' accomplishments include:

Energy Management Systems (EMS)

Rooms are being installed with Inncom intelligent Energy Management Systems to control lighting and air-conditioning when the rooms are occupied and unoccupied .

The system will improve guest comfort by reducing condensation and humidity and ensure significant in-room energy savings equivalent to **removing 2 cars** permanently from the road a year.

LED Lighting

The property is fitted with super efficient LED lighting solutions, improving light quality and significantly reducing energy consumption.

Innu-Science Biotechnology Cleaning - Green Cleaning

The Innu-Science Biotechnology cleaning range is being implemented to L'Hirondelle, successfully removing chemicals from the property. This is having a positive impact on the environment and the health of their guests and staff.

Ozone Wash Cleaning

Ozone technology is used in the Laundry utilising cold water cleaning reducing energy & CO2 emissions whilst creating a bacteria free environment
